

HOW RESILIENT IS YOUR BUSINESS?

See your risk with the free, online 2017 FM Global Resilience Index

HIGHLIGHTS

OVERALL SCORES

SWITZERLAND (#1) gets high marks for many resilience drivers. Low risk quality and poor economic conditions put **HAITI (#130)** at the bottom.

INHERENT CYBER RISK

INDIA (#60) has emerged as a country with below-average inherent cyber risk while **SAUDI ARABIA (#56)** is above-average.

EXPOSURE TO NATURAL HAZARDS

SWEDEN (#3) has above-average resilience due partly to its lower-than-average exposure to natural hazards. Flood-prone **BANGLADESH (#111)** ranks toward the bottom of the index.

SUPPLY CHAIN VISIBILITY

GERMANY (#5) ranks near the top in resilience, driven partly by its strong ability to track and trace consignments. **RUSSIA (#57)** ranks below average in this respect.

ABOUT FM GLOBAL

FM Global is a mutual insurance company whose capital, scientific research capability and engineering expertise are solely dedicated to property risk management and the resilience of its client-owners. These owners, who share the belief that the majority of property loss is preventable, represent many of the world's largest organizations, including one of every three FORTUNE 1000 companies.
